

Delock HDMI KVM Switch 2 x with USB 2.0 and Audio

Description

This KVM switch by Delock is a convenient solution for connecting two computers with HDMI output to one HDMI monitor. By using the button or a hotkey you can switch between both computers. Furthermore, three USB 2.0 Type-A ports can be used to connect a mouse, keyboard, hard drive or USB memory. The built-in USB headset feature allows you to use a headset and microphone with both computers.

Item no. 11421

EAN: 4043619114214

Country of origin: China

Package: White Box

Note

KVMs emulate a standard wired 104 key keyboard and wired generic 2 or 3 button scroll wheel mouse on their respective console ports. Whether or not a wireless or gaming mouse and keyboard work with KVM switches depends on several factors; in general, most wireless mice and keyboards do not support working with KVM switches. We recommend to use a standard wired mouse and keyboard with our KVM switches.
