

Delock Bluetooth Speaker

Description

This Bluetooth Speaker by Delock supports a wireless connection to Bluetooth devices like e. g. Smartphone or tablet PC and offers an impressive sound in despite of its small dimension. The speaker has an additional phone button which you can use to answer a call or to end a call, thus you can use the speaker as hands-free system for your mobile phone. If you press the phone button for 3 sec. the last telephone call will redial automatically.
