Delock Slim Bay Mobile Rack for 4 x M.2 NVMe SSD with Slim SAS SFF-8654 connector

Description

This solid metal mobile rack by Delock can be installed into a PC by the help of an optional frame. Furthermore, it is also possible to use the mobile rack directly in a server rack or 19″ storage enclosure. To ensure the maximum speed at each port, **each slot has its own Slim SAS SFF-8654 connector**.
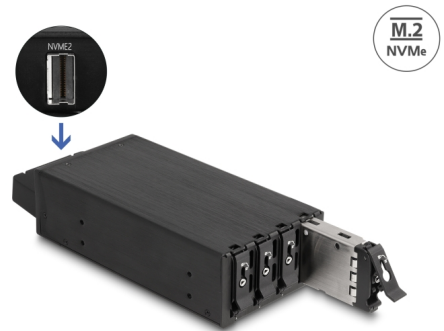

Quick change of SSD
Due to the special mechanism, the **SSD can be exchanged quickly and easily**. For example, data backups can be taken and stored in a safe place.

Tray with key lock and springs

The mobile rack is equipped with a **key lock** to prevent unauthorised access. The stable carrier of metal has springs on the top and bottom which **reduce vibrations** and therefore support its use in mobile devices.

Note

Special care must be taken that the tray is fully inserted, otherwise no connection to the SSD can be established.
