

# Delock USB Type-C™ 3.2 Docking Station for 2 x 2.5" SATA HDD / SSD with Clone Function

## Description

This docking station by Delock enables an external connection of up to **two 2.5" SATA HDDs or SSDs** through the **USB-C™** interface. This solution does not require an external enclosure since the drive can be plugged into the docking station directly. Furthermore the **clone function** enables to copy the content of one HDD to another without using a PC.

### Good cooling

A **fan in the bottom area** of the docking station ensures sufficient cooling of the HDDs or SSDs used, so that the operation also works without problems with closed lid. Another advantage is that **the noise level of the HDDs will be reduced**.

### Suitable as transport box

Due to the **elegant design** and the specially designed lid, the docking station is also suitable as a transport box for two 2.5" memories.
